

TOGETHER WE CAN DEFEAT THE PANDEMIC

PUBLIC BUILDINGS AND VEHICLES

You have a responsibility to ensure that people who are on your premises or in your vehicles wear masks at all times.

EMPLOYERS

All employers must allow their staff to work from home wherever possible, and should postpone all non-essential travel and workplace gatherings.

ALCOHOL

As we approach the peak of infections, we cannot afford to burden our already burdened public health services with avoidable alcohol-related injuries.

ANC STRUCTURES

With restrictions on the number of people allowed in gatherings, it means all ANC meetings will be conducted with strong adherence to the protocols and regulations or online, including BGMs and regional/provincial conferences. As leader of society, we have a duty to be seen to be complying and being at the forefront of raising awareness.

PLAY YOUR PART!

The pandemic can be contained and lives saved if all South Africans rally behind government efforts, comply and adhere guidelines.

Let us all continue to play our part. Let us wear masks, practice good hygiene, sanitise, observe social distancing, ensure adequate ventilation and avoid crowded places.

GRATITUDE TO FRONTLINE WORKERS

We appreciate the sacrifices of many frontline health workers who placed their own lives at risk in order to save the lives of their fellow citizens.

LET US ALL COMPLY

ANC condemns those calling for defiance of lockdown regulations. We view these calls as reckless and irresponsible. Lockdown regulations are in our collective interests. They are meant to arrest the spread of Covid-19 and ultimately preserve lives.

VACCINES ARE EFFECTIVE

A vaccine is our most effective measure to combat COVID-19. The scientific evidence before us shows that vaccines work. They are safe. They are effective, and they save lives.

TOGETHER WE CAN DEFEAT THE PANDEMIC

VACCINES ARE EFFECTIVE

Vaccines significantly reduce the likelihood of a person developing symptoms and becoming seriously ill, and they reduce the overall rate of infection in a population. Any of the vaccines that government is rolling out will protect you against severe disease, hospitalisation and, most importantly, death.

TOGETHER WE CAN DEFEAT THE PANDEMIC

VACCINES ARE EFFECTIVE

We acknowledge that some vaccinated people may still become infected, regardless of variant, because no vaccine is 100% effective. Where vaccinated people do get infected, the symptoms tend to be mild.

VACCINES ARE EFFECTIVE

Let us allow science and our medical experts to guide us on the vaccines that can be used. We must rely on scientific evidence to determine the safety, quality and efficacy of vaccines.

GET VACCINATED

Those eligible must register for a vaccine whether it is online, via SMS, by phone, or in person.

Let us mobilize our structures to assist our elderly to register and receive their vaccination.

We must continue to follow the public health guidelines even if we are vaccinated.

BUSINESS

Most businesses will continue to operate at full capacity and should not be affected. Our focus is on limiting social contacts while preserving the economy. These restrictions are designed to allow as much economic activity to continue as possible, while containing the spread of the virus.
